

Feed-a-stray a-day in May

In 2010 over

32,400

**cats were killed in
NSW pounds and
shelters**

Feed-A-Stray-a-Day in May is in its 3rd year to honour the life of 'May'. She died in May within 5 weeks of becoming lost. She was found in the next street where she had been for 3 weeks, **unfed** by the residents! May could have been saved! Cats can be diverted from pounds and shelters through feeding and rescue.

- ✓ **Feeding is the RIGHT thing to do** if you see a lost cat
- ✓ Feeding is a pathway to desexing
- ✓ Feeding is a pathway to survival and rehoming
